

Application Serial No. 10/701,306

PATENT
Docket: CU-3424**REMARKS/ARGUMENTS**

Reconsideration is respectfully requested.

Claims 14-15 were pending in the present application before this amendment.

By the present amendment, the preambles of claim 14-15 has have been amended. No new matter has been added.

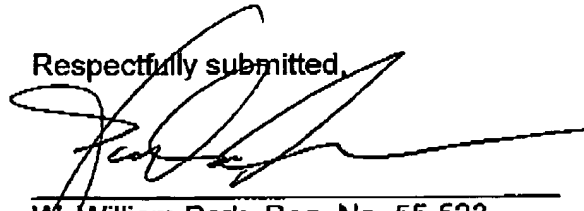

The applicant respectfully request reconsideration of claim 14 at least on ground that the cited Fujieda and Muraki references do not teach or disclose the claimed -- power down controller-- for the reasons stated in the last filed office action pages 4, bottom. It was already argued in the last filed response:

"Muraki col. 1, lines 45-45 merely makes some suggests in very general term that "Various means for power down control are employed, such as ... reduce the frequency clock" but this is pretty much the extent of the Muraki's disclosure."

Thus, even if Fujieda and Muraki are combined, they still do not teach the independent claim 14 herein. Reconsideration is respectfully requested and issuance of Notice of Allowance is respectfully requested.

Should the examiner have any remaining questions or concerns, the examiner is encouraged to contact the undersigned attorney by telephone to expeditiously resolve such concerns.

Respectfully submitted,
